

# Solo **STREAM TOOLS**

Solo, Stream Tools  
and you're good to go!

## Accelerate time-to-live with a unified cloud video production solution

With all the content out there today, drawing attention to your brand is no easy matter.

Content creators are in a race to shorten their workflows, generating video that reflects their brand and has audiences coming back for more.

## A unified capture-to-share workflow

With LiveU Solo PRO and Solo Stream Tools you're good to go!

This all-in-one solution enables you to stream high-quality live video feeds from the wire-free lightweight Solo PRO into the Stream Tools production toolbox and share them with wider audiences in a few clicks.

And that's not all! Subscribe to LiveU Solo Stream Tools and benefit from built-in LRT™ (LiveU Reliable Transport), the original bonded cellular protocol, ensuring the highest possible video quality and rock-solid reliability from anywhere.

## Solo Stream Tools features

### BRANDING

You work hard to deliver the best content to your audience, and when you do, you build a brand. A brand that your viewers seek out and trust. Deliver consistent branding with your distinctive logos, tailored graphics and marketing elements to align with your monetization goals.

GIF or PNG

### MULTI-DESTINATION

Put your content in front of more audiences, automatically! Expand your reach at the click of a button making it simple to share your live feed over up to three simultaneous online platforms.

Social media · Online networks · Video platforms  
· RTMP/S for dedicated websites

### FALLBACK SLATES

It pays to be prepared, especially when live streaming. Keep your audience engaged even during brief absences. Automatically pull up a fallback slate, helping to keep your audience online and engaged with a seamless viewing experience.

Images · VOD

### Built-in flexibility

With Solo Stream Tools, you're in control with easy activation through the [Solo Portal](#). Subscriptions include both the production as well as the LRT™ services, allowing you to choose between annual or monthly packages and providing the flexibility to activate them whenever you need them.
