

# LiveU Schedule

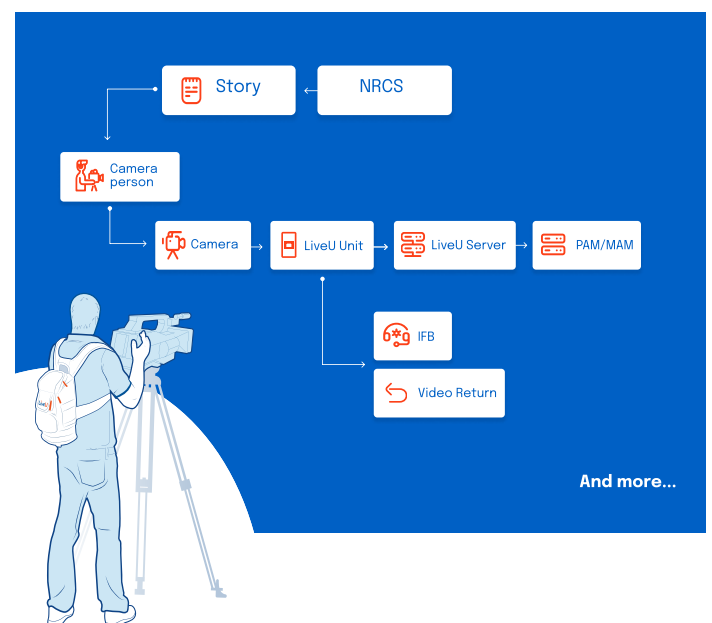

## Centralized Scheduling, Orchestration & Automation Solution

Broadcasters today are under pressure to produce more content, faster, and with fewer resources. However, many teams still rely on spreadsheets, disconnected tools, or costly solutions to plan and deploy their resources.

This creates unnecessary complexity, leading to errors, double bookings, last-minute changes, and higher costs.

**LiveU Schedule** transforms this process. As a cloud-native SaaS platform, it unifies resource booking, scheduling, and orchestration, into a single intuitive interface.

Designed specifically for broadcast and live content teams, LiveU Schedule centralizes production resources inside and outside the **LiveU EcoSystem**, as well as people, equipment and services. The platform gives teams the tools to plan, coordinate, and deploy instantly with no manual steps.

Whether for fast-paced news or large-scale sports, LiveU Schedule adapts to every workflow, scaling effortlessly as operations grow.

## Key Capabilities

### Centralized Scheduling

Book crews, units, channels, and software in one interface. Handle ad-hoc or recurring events and prevent time conflicts.

### Workflow Orchestration & Automation

Connect and configure resources instantly. Real-time updates and alerts in case of scheduling overlaps, and last-minute changes made easy.

### Dashboards & Reporting

Full visibility into event assignments, resources, usage, billing, performance, etc. Generate work orders and insights.

### Future-Ready Flexibility

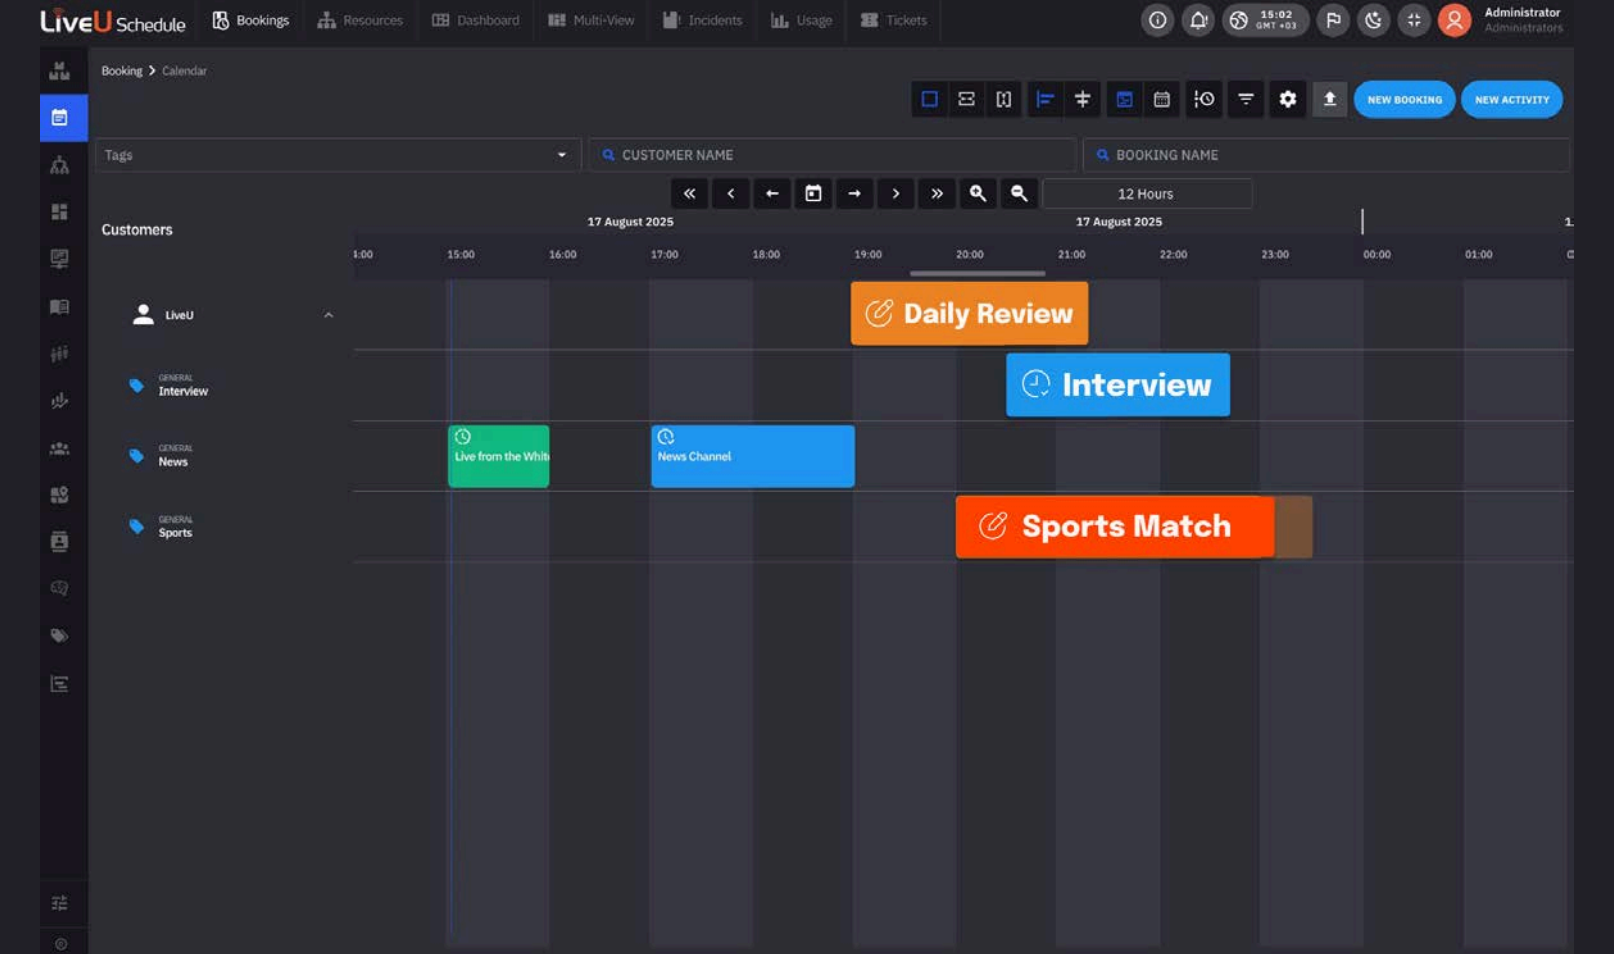

Cloud-native SaaS, integrated natively with the LiveU EcoSystem and capable of other third-party integrations whenever you need them.

## Orchestrating LiveU EcoSystem and Beyond

**LiveU Schedule** is natively integrated with the entire **LiveU EcoSystem**, ensuring instant compatibility with every LiveU unit and channel. At the same time, it is fully open to third-party devices and systems, from NRCS, MAM/PAM solutions to third-party encoders and more.

This dual solution gives broadcasters the best of both worlds: seamless orchestration of LiveU workflows with the flexibility to bring in, integrate and orchestrate any external resource. With LiveU Schedule, teams can unify their entire production environment in one place, enabling smooth, end-to-end coordination across all existing systems.

# Why LiveU Schedule?

## Simplify operations

Spreadsheets and fragmented tools replaced with one platform.

## Cut costs and save time

Overtime and manual effort reduced through automation.

## Increase reliability

Conflict prevention and real-time updates enabled with reduced errors.

## Adapted to your needs

From daily newsrooms to multi-venue events, a cloud-native SaaS platform configured according to your needs.

## Work without borders

Third-party solutions, multi-user, multi-language, and multi-location support, allowing global teams to operate as one.

## One Single Solution

Schedule, orchestrate, and automate all resources from a single platform, no need to juggle with multiple or outdated tools.
